

Siting Wind Energy Systems

Thursday, August 16, 2007

6:30 – 9:00 pm

Boyne District Library, 201 E. Main Street, Boyne City

Very few Michigan jurisdictions have laws on their books to guide local land use officials who must decide on permit applications for siting new wind energy facilities. Jurisdictions that proactively plan for wind turbines and specifically regulate their installation will avoid a measure of uncertainty and the unfortunate public discord that sometimes comes along with new land use proposals.

This workshop will introduce the participants to the new "Michigan Siting Guidelines for Wind Energy Systems"; the Manistee County Pilot Project; and the State Energy Demonstration Center with the following speakers:

Michael Klepinger, Outreach Specialist
MSU Land Policy Institute
"Planning and Zoning Guidelines for
Siting Wind Energy Systems"

Who Should Attend? Local elected and appointed officials, developers, planning and design professionals, businesses, and others who are interested in wind energy.

PLEASE REGISTER EARLY – THE NUMBER OF PARTICIPANTS WILL BE CAPPED AT 50.

Accommodations for people with disabilities may be requested by calling NWMCOG at (231) 929-5039 before the registration deadline. Requests received after that date will be met if possible. NWMCOG programs and materials are open to all without regard to race, color, national origin, gender, religion, age, disability, political beliefs, sexual orientation, marital status or family status. NWMCOG is an equal opportunity employer.
